

Co-operation Agreement

Herewith the partners

A.I.E. A.G Chilean Association of Electronics Industries
and the Dutch Association for Industrial Electronics, member of FHI

Declare their intention to co-operate according to the following objectives.

- Regular exchange of information about business opportunities and news of the electronics sector between both Associations (website, periodicals, journals, seminars, shows, etc.)
- Exchange of FHI and AIE banners, to be published in both websites.
- Participation in each others trade shows (FISA Industrial Trade Show (Electronics Pavilion) in Chile October 2001 & Electronics & Automation as far as the member companies are interested.
- High Technology Site in Chile: regular communications to FHI and AIE members about the progress of the project of building a new multi-company high technology site to be designed and operated in Chile by the AIE, and promotion of possibilities of investing in Chile (as a single company or through a joint venture with local companies), installing facilities in Chile.
- General support to construction of long term project and business co-operation between companies belonging to both associations.
- Mutual promotion of the one to one meeting of Chilean (AIE member) companies visiting Holland and Dutch (FHI member) companies visiting Chile.

Signed, April 4th, 2001, Utrecht

M. Antonio Manterola B
Chairman of the Board Vice president Chilean
Association of Electronics Industries

G. Dick Rakhorst
